SAMPLE INTERVIEW SECTION

Child and Adolescent Psychiatric Assessment

Definitions and questions

**ALCOHOL USE**

Include any use of alcohol (beer, cooler, wine, hard liquor), even with parental permission.

*Have you ever tried drinking alcohol?*

*What about hard liquor?*

When did you first try it?

Have you had any in the last 3 months?

How often do you drink alcohol?

How much do you drink in the average week?

**IF THE SUBJECT HAS EVER DRUNK ALCOHOL, CONTINUE.**

**OTHERWISE SKIP TO DRUG USE SECTION (PAGE 214)**

**USE OF ALCOHOL WITHOUT PERMISSION FROM A RESPONSIBLE ADULT**

Drinking alcohol without permission from a responsible adult, whether alcohol obtained legally or illegally.

*Have you ever drunk any alcohol without permission?*

When was that?

What about during the last 3 months?

How often have you done it?

Have you ever drunk alcohol on 5 consecutive days in the last 3 months?

Do you usually drink alcohol on your own or with other people?

Do you ever drink alcohol on your own?

When did that start?

**Coding rules**

**EVER ALCOHOL USE**

0 = Never drunk alcohol

2 = Has drunk alcohol at some time

**NUMBER OF DRINKS**

Code average number of drinks per week during last 3 months:

1 drink = 1 bottle of beer

1 glass of wine

1 shot of spirits

**FREQUENCY OF DRINKING EPISODES**

During last 3 months

**SOLITARY/ACCOMPANIED**

0 = Solitary

2 = Often accompanied, but < 50% of the time

3 = Accompanied 50% or more of the time

**EVER USE WITHOUT PERMISSION**

0 = Has never drunk alcohol without permission

2 = Has drunk alcohol without permission at some time

**USE WITHOUT PERMISSION**

0 = Has not drunk alcohol without permission during last 3 months

2 = Has drunk alcohol without permission during last 3 months
GLOSSARY NOTES

USE OF ALCOHOL WITHOUT PERMISSION

Drinking alcohol without permission from a responsible adult, whether the alcohol was obtained legally or illegally.

N, WEIGHTED PREVALENCE, and MISSING DATA

<table>
<thead>
<tr>
<th>CAPA</th>
<th>Weighted Median</th>
<th>YAPA</th>
<th>Weight Median</th>
</tr>
</thead>
<tbody>
<tr>
<td>N</td>
<td>14.01</td>
<td>816</td>
<td>16.51</td>
</tr>
</tbody>
</table>

Missing data notes:
- Other notes: 1 case has an onset date of 0, and 10 cases report an onset date of 915 days (= 2.5 years) or less. There are a few cases of onset dates without permission after age 21 (even though, by law, parental permission is no longer required at that age).

OTHER VARIABLES

None.

SAS CODE

* Create age in days from parent report. If parent doesn't exist then use child report;
if paa1o01 gt 0 then agedays=paa1o01;
else if caa1o01 gt 0 then agedays=caa1o01;

* Subtract onset date in days from current age in days in order to create onset age in days.

*Child report;
calcons=.;
if CHA4E01a ge 1 then do;
   if (. <= agedays < 7665) then calcons =(agedays-CHA4001);
   else if (agedays >=7665 and cha3o01 >=7665) then calcons =(agedays-cha3o01);
end;
label calcons='Child-reported Age of Onset: Alcohol';
*Parent report (not available after wave 8 / age 17);
palcons=.;
if (PHA4E01a ge 1) then do;
   if (. <= agedays < 7665) then palcons =(agedays-PHA4O01);
end;
label palcons='Parent-reported Age of Onset: Alcohol';

*Joint report;
Jalcons= CALCONS;
if (CALCONS eq .) or (CHA4E01a eq 0 AND PHA4E01a GE 1) then Jalcons= pALCONS;
label Jalcons = 'Age of Onset: Alcohol';

****Retain lowest value of jalcons to date****;

**DESCRIPTION**

Definition: Any maladaptive behavior in last 3 months.
The CAPA assess 22 different maladaptive behaviors that are secondary to substance use (e.g., intensity of alcohol involved in tolerance). Of the 22, 16 are criteria for substance abuse or dependence.

Informant: Child report is default. Use parent report if: a) child report is missing, b) child denies presence of a possible problem, but parent reports it.

SAMPLE INTERVIEW SECTION

Child and Adolescent Psychiatric Assessment

Definitions and questions

DISINHIBITED AGGRESSION

After using "substance" the subject has been verbally or physically aggressive in a way that is not characteristic of his/her behavior when not intoxicated.

"Have you gotten into any arguments when you were "high (drunk)?"

"When you've used a lot of "substance" do you get bad-tempered or angry?"

More than usual?

How often in the last 3 months?

When did that start?

"Have you gotten into any physical fights when you were "high (drunk)" in the last 3 months?"

How often?

When did that start?

YAPA (GMS) 2.0.0

**Definitions and Questions**

**Subjective Need for "Substance"**

A feeling of need or craving to consume "substance", that is, at least sometimes, intrusive into other thoughts or activities, and cannot be always be controlled except through using "substance".

*Do you sometimes need "substance" to help you get through the day?*

*When did that start?*

*How often in the last 2 months?*

*When do you have your first "substance" of the day?*

*Do you miss it if you can't get "substance"?*

*What happens if you don't get "substance"?*

### Coding Rules

Definitions and questions

UNCONTROLLABLE "SUBSTANCE" USE
Episodes in which, whatever his/her original intentions, the subject keeps on using "substance" until unable to use "substance" any more, either because of the unavailability of further "substance" or because of physical incapability (e.g. severe nausea).

If you once start using "substance", do you ever find that you just can't stop until all the "substance" is gone?

Or until you physically can't take any more (e.g. because of unconsciousness, vomiting, "sore lungs", etc.)?

Do you ever use "substance" just because it's there

How often does that happen?
When did that start?

Coding rules

0 = Never unable to resist using "substance" until no further "substance" available or unable to use "substance" any more.
2 = Sometimes (3 = Usually (> 50% of the time) unable to stop until no further "substance" available or unable to use "substance" any more.

(P/Maladaptive behavior: Intensity of alcohol involved in narrowed “substance” use)
### NARROWED "SUBSTANCE" USE REPERTOIRE

The subject tends to use "substance" in the same way in any situation, even when a particular pattern may be inappropriate. For instance using "substance" heavily when on a first date, or using "substance" as much whether alone or in company. Subject is unable to have a repertoire of substance using behaviors; patterns of heavy use are no longer differentiated by environment.

**Do you "get high (drunk) (use substance)" in inappropriate circumstances?**

**Like where?**

**Do have different patterns of using "substance" in different situations?**

**Do you vary how you use "substances" depending on the situation?**

**When did that start to happen?**

**Like when you go on a date, as compared with when you are with your friends?**

SAMPLE INTERVIEW SECTION

Definitions and questions

DISINHIBITED AGGRESSION
After using "substance" the subject has been verbally or physically aggressive in a way that is not characteristic of his/her behavior when not intoxicated.

Have you gotten into any arguments when you were "high (drunk)"?
When you've used a lot of "substance" do you get bad-tempered or angry?

More than usual?
How often in last 3 months?
When did that start?
Have you gotten into any physical fights when you were "high (drunk)" in the last 3 months?

How often?
When did that start?

Coding rules

DISINHIBITED AGGRESSION
0 = Not unusually aggressive when under the influence of "substance"
1 = Has been slightly more aggressive when under the influence of "substance" during last 3 months.
2 = Has been physically violent when under the influence of "substance" during last 3 months.
3 = Has been physically aggressively when under the influence of "substance" during last 3 months.

SAMPLE INTERVIEW SECTION

YAPA (G5MS) 2.0.3

Definitions and questions

SCHOOL/WORK AFFECTED
Negative effects on school/work, performance and/or achievement that have resulted from "substance" use.
CODE AS IN INCAPACITY SECTION.

Has your school/work ever been affected because you were using "substance"?
When was that?
What happened?
What about during the last 3 months?
Have you ever been to school/work when you were "high (drunk)?"
What happened?
Have you gotten into any trouble at school or elsewhere where "substance" was involved?
What happened?
Have you neglected your work because of "substance"?
Have you missed any school because of "substance use"?
How much?
When was that?
What about in the last 3 months?

### Definitions and questions

**"SUBSTANCE" RELATED CRIME**
Illegal activities undertaken either to obtain "substance", or associated with imbibition with "substance".

PROSTITUTION IS ALSO CODED AS SEXUAL ACTIVITY FOR GAIN.

DEALING IS ALSO CODED AS DEALING DRUGS.

Have you done anything illegal while you were "high" in the last 3 months?

- What did you do?
- Did you get caught?
- What happened?
- When was the first time?

Have you ever stolen to get money for "substance"?

Or stolen any "substance"?

Have you ever been a runner or dealer to get money for "substance"?

Have you ever had sex with anyone to get "substance"?

**MOOD LABILITY**

Unstable mood swings, often from excessive joviality to mauvein misery or anxiety. Mood lability should only be coded here if it is sufficiently pronounced as to lead to effects that seem inappropriate to the situation (such as copious, apparently unprovoked, weeping in a bar), or appear to have interfered with the normal course of conversation or activities.

**Did your mood change at all when you were high?**

**How did you feel?**

**What was it like?**

**Was your mood very up and down?**

**What about in the last 3 months?**

**When did that start?**

Definition: A maladaptive pattern of alcohol use, leading to clinically significant impairment or distress, as manifested by three or more of the following seven criteria, occurring at any time in the same 12-month period:

1. Tolerance, as defined by either of the following:
   a. A need for markedly increased amounts of alcohol to achieve intoxication or desired effect.
   b. Markedly diminished effect with continued use of the same amount of alcohol.
2. Withdrawal, as defined by either of the following:
   a. The characteristic withdrawal syndrome for alcohol (refer to DSM-IV or J4NWD1 for further details).
   b. Alcohol is taken to relieve or avoid withdrawal symptoms.
3. Alcohol is often taken in larger amounts or over a longer period than was intended.
4. There is a persistent desire or there are unsuccessful efforts to cut down or control alcohol use.
5. A great deal of time is spent in activities necessary to obtain alcohol, use alcohol or recover from its effects.
6. Important social, occupational, or recreational activities are given up or reduced because of alcohol use.
7. Alcohol use is continued despite knowledge of having a persistent or recurrent physical or psychological problem that is likely to have been caused or exacerbated by the alcohol (e.g., continued drinking despite recognition that an ulcer was made worse by alcohol consumption).

TOLERANCE
The need for increased intake of "substance" (by at least 50%) to reduce previously experienced psychological or behavioral changes associated with "substance" use.

Do you need to use more "substance" than you used to, to have the same effect?

Are you able to tolerate larger amounts of "substance" than you used to?

How much more?
When did you start to need more?
GLOSSARY NOTES

USE OF ALCOHOL WITHOUT PERMISSION

Drinking alcohol without permission from a responsible adult, whether the alcohol was obtained legally or illegally.

**DESCRIPTION**

Definition: A maladaptive pattern of alcohol abuse leading to clinically significant impairment or distress, as manifested by one or more of the following, occurring within a 12-month period:

1. Recurrent alcohol use resulting in failure to fulfill major role obligations at work, school, or home (e.g., repeated absences or poor work performance related to substance use; substance-related absences, suspensions or expulsions from school; or neglect of children or household).

2. Recurrent alcohol use in situations in which it is physically hazardous (e.g., driving an automobile or operating a machine).

3. Recurrent alcohol-related legal problems (e.g., arrests for alcohol-related disorderly conduct).

4. Continued alcohol use despite persistent or recurrent social or interpersonal problems caused or exacerbated by the effects of the alcohol (e.g., arguments with spouse about consequences of intoxication or physical fights).

## SAMPLE INTERVIEW SECTION

**YAPA (G3MS) 2.0.3**

### Definitions and questions

**DISINHIBITED SEXUALITY**

After using “substance” the subject is sexually provocative, or forward in a way that is not characteristic of his/her behavior when not intoxicated.

*Have you made a pass at anyone when you were “high (drunk?)”?

*Have you tried to pick anyone up when you were “high (drunk?)”?

*What happened?

*Is that the sort of thing that you would do when you hadn’t been using “substance”?

*How often in the last 3 months?

*When did that start?

**DESCRIPTION**

**Definition:** The development of an alcohol-specific maladaptive behavioral change with physiological and cognitive concomitants, that is due to the cessation of, or reduction in, heavy and prolonged alcohol use.

1. Cessation of (or reduction in) alcohol use that has been heavy and prolonged.

2. Two (or more) of the following, developing within several hours to a few days after Criterion 1:
   a. Autonomic hyperactivity (e.g., sweating or pulse rate greater than 100)
   b. Increased hand tremor
   c. Insomnia
   d. Nausea or vomiting
   e. Transient visual, tactile, or auditory hallucinations or illusions
   f. Psychomotor agitation
   g. Anxiety
   h. Grand mal seizures

3. The symptoms in Criterion 2 cause clinically significant distress or impairment in social, occupational, or other important areas of functioning.

4. The symptoms are not due to a general medical condition and are not better accounted for by another mental disorder.

Specify if: With Perceptual Disturbances

SAMPLE INTERVIEW SECTION

**Definitions and questions**

**TREMOR**
Coarse peripheral tremor, occurring during periods of reduced alcohol intake (such as on rising in the morning) and relieved by alcohol or use of other substances.

*Did your hands (tongue, eyelids) shake?*
Can you show me what it was like?
When did that start?

**NAUSEA/EMETIC**
Nausea or vomiting, occurring during periods of reduced alcohol intake (such as on rising in the morning) and relieved by alcohol or use of other substances (unless such substances either not available or withheld).

*Did you feel nauseous?*
*Did you vomit?*
When did that start?

**AUTONOMIC HYPERACTIVITY**
Signs of autonomic hyperactivity, such as sweating, tachycardia, palpitations, increased respiratory rate, or flushing, associated with reduced alcohol intake (such as on rising in the morning) and relieved by alcohol or other substances (unless such substances either not available or withheld).

*Did you notice any other physical symptoms?*
*Did you feel sweaty?*
*Or did you notice your heart beating fast?*
When did that start?

**HEADACHE**
Headache of any sort associated with reduced alcohol intake (such as on rising in the morning) and relieved by alcohol or other substances (unless such substances either not available or withheld).

*Did you get a headache?*
How long did it last?
When did it start?

SAMPLE INTERVIEW SECTION

**Definitions and questions**

**DESIRE TO CUT DOWN**
The subject has at certain times felt that s/he would like to reduce his/her alcohol intake. There is no requirement that s/he should have actually done so.

*Do you want to cut down on how much alcohol you drink?*
*Have you (since the last interview) wanted to? When was the first time?*

**ADvised to cut down**
Parents, friends, professionals, or others have told or advised the subject to reduce his/her alcohol intake, on at least one occasion.

*Has anyone (since the last interview) told you that you should cut down? Who? When was the first time? What do your parents think?*

**Attempts to cut down**
Actual efforts at reduced alcohol intake or abstention made, lasting at least 8 hours, but which proved unsuccessful at permanently reducing intake.

*Have you (since the last interview) actually tried to cut down on how much alcohol you drink? Why was that? How many times have you tried? When was the first time? What about in the last 3 months? For how long? Did you substitute other substances while you were cutting down on alcohol?*

- **CHA8E01a** (Alcohol: Ever: Drunk)
### Definitions and questions

**ALCOHOL INTOXICATION**

Alcohol ingestion associated with any of the following behavioral or psychological changes: slurred speech, incoordination, unsteady gait, nystagmus, flushed face.

**Have you (since the last interview) been drunk?**

- When was the first time?
- What about during the last three months?
- How often?
- Tell me about the last time?

**Have you ever drunk?**

- How much did you have to drink?
- How drunk did you get?
- Did you get sick to your stomach?
- Or vomit?
- How often did you vomit?
- Did you pass out?

**Was your speech slurred?**

**How was your coordination?**

- Did you have trouble walking straight?
- Did you fall down at all?
- Or bump into things?
- Or knock anything over?
- Could you move your arms and hands properly?
- Could you fix your eyes on things properly?
- Or were they jarring about?

**Do you know if your face was red?**

**Did you start to believe any strange or unusual things?**

Definitions and questions

ALCOHOL INTOXICATION
Alcohol ingestion associated with any of the following behavioral or psychological changes: slurred speech, incoordination, unsteady gait, nystagmus, flushed face.

Have you (since the last interview) been drunk?
When was the first time?
What about during the last three months?
How often?
Tell me about the last time?
How much did you have to drink?
Did you get sick to your stomach?
Or vomit?
How often did you vomit?
Did you pass out?
Was your speech slurred?
How was your coordination?
Did you have trouble walking straight?
Did you fall down at all?
Or bump into things?
Or knock anything over?
Could you move your arms and hands properly?
Could you fix your eyes on things properly?
Or were they jerking about?
Do you know if your face was red?
Did you start to believe any strange or unusual things?
