SAMPLE INTERVIEW SECTION

CANNABIS SECTION

When questioning about drugs, substitute the name the subject uses for them.

CANNABIS USE WEEKLY

Earlier you said that you have smoked marijuana...
Have you smoked pot as often as once a week?
For as much as a straight month?
Have you smoked pot weekly in the last 3 months?
When did that start?

CANNABIS USE DAILY

Have you ever used "marijuana" daily; at least 5 days a week for a month or more?
When did you start using at that level?
Have you used "marijuana" daily in the last 3 months?
**GLOSSARY NOTES**

None.

## SAMPLE INTERVIEW SECTION

### Definitions and questions

#### DRUG USE

*Code all drugs (since the last interview) used by the subject*

#### DRUGS

- Have you ever experimented with any drugs?
- What about with your friends?
- Has anyone ever given you any drugs?
- What did you do?
- I have a list of drugs here that you might have come across. Is it OK if I ask you about them?

#### CANNABIS USE

- Marijuana, weed, pot, grass, hash, Thai stick.
- Have you ever tried smoking pot?
- Have you used marijuana in the last 3 months?
- When was the first time you ever used marijuana?

#### COCAINE USE

- Coke
- Have you ever tried cocaine?
- When did you first try?
- Have you used it in the last 3 months?

SAMPLE INTERVIEW SECTION

DEALING DRUGS
The subject sells illegal drugs to others, gets others to sell drugs for him/her, or gives drugs to others in exchange for goods (including weapons) and services (including sexual favors).

ALSO CODE UNDER SUBSTANCE RELATED CRIME IN THE MALADAPTIVE BEHAVIOR SECTION

Have you ever sold/dealt drugs to anyone?
Have you sold/dealt drugs in the last 3 months?
Or gotten anyone else to sell drugs for you?
Or given anyone drugs in exchange for something you wanted?

What kind of drugs?
How many times?
What were the drugs worth?
Cannabis (Marijuana, weed, pot, grass)?
Cocaine or crack?
Amphetamines (uppers, speed), Ice, or Meth?
Heroin, morphine, opium, other opioids?
What about ecstasy or oxycodone?
LSD, PCP, or Magic Mushrooms?
Sedatives (barbiturates) such as Xanex, Halcion, or Valium?
When was the first time you ever sold any type of drug?
What about in the last 3 months?
How much were the drugs worth that you sold in the last 3 months?

**SAS CODE**

---

**DESCRIPTION**

Definition: A maladaptive pattern of cannabis use, leading to clinically significant impairment or distress, as manifested by three or more of the following criteria:

1. **Tolerance:**
   - Tolerance to cannabis is manifested as either a need for markedly increased amounts of cannabis to achieve intoxication, or a markedly diminished effect with continued use of the same amount of cannabis.

2. **Greater use of cannabis than intended:**
   - Cannabis was often taken in larger amounts or over a longer period than was intended.

3. **Unsuccessful efforts to cut down or control cannabis use:**
   - Persistent desire or unsuccessful efforts to cut down or control cannabis use.

4. **Great deal of time spent in using cannabis, or recovering from hangovers.**

5. **Cannabis caused reduction in social, occupational or recreational activities:**
   - Important social, occupational, or recreational activities given up or reduced because of cannabis use.

6. **Continued using cannabis despite knowing it caused significant problems:**
   - Continued cannabis use is continued despite knowledge of having a persistent or recurrent physical or psychological problem that is likely to have been worsened by cannabis.

SAS CODE

DESCRIPTION

Definition: A destructive pattern of cannabis use, leading to significant social, occupational, or medical impairment, as manifested by one or more of the following:
1. Recurrent cannabis use resulting in failure to fulfill major role obligations at work or school.
2. Recurrent cannabis use in situations in which it is physically hazardous (e.g., driving an automobile).
3. Recurrent cannabis-related legal problems (e.g., arrests for cannabis possession).
4. Continued cannabis use despite persistent or recurrent social or interpersonal problems caused or exacerbated by the effects of the cannabis (e.g., arguments with spouse or parents over the possession of cannabis in the home or its use in the presence of children).

### SAMPLE INTERVIEW SECTION

Wave P EVAPA 2.0.3

**Definitions and questions**

**SCHOOL/COLLEGE/UNIVERSITY/WORK AFFECTED**

Negative effects on school/college/university or work, performance and/or achievement that have resulted from "substance" use.

**CODE AS IN INCAPACITY SECTION.**

*Has your education or work ever been affected because you were using "substance"?*

When was that?  
What happened?  
What about during the last 3 months?  
Have you ever been to school/college/university or work when you were "high (drunk)"?

What happened?  
Have you gotten into any trouble because "substance" was involved?

What happened?  
Have you neglected your studies or work because of "substance"?

Have you missed any classes or work because of "substance use"?

How much?  
When was that?  
What about in the last 3 months?

Definitions and questions

SUBJECTIVE NEED FOR "SUBSTANCE"
A feeling of need or craving to consume "substance", that is, at least sometimes, intrusive into other thoughts or activities, and cannot always be controlled except through using "substance".

Do you sometimes need "substance" to help you get through the day?

Does it bother you if you don't have "substance" on any given day?

Do you crave it?

When did that start?

How often in the last 3 months?

When do you have your first "substance" of the day?

Do you miss it if you can't get "substance"?

What happens if you don't get "substance"?

SAMPLE INTERVIEW SECTION

Definitions and questions

SUBJECTIVE NEED FOR "SUBSTANCE"

A feeling of need or craving to consume "substance", that is, at least sometimes, intrusive into other thoughts or activities, and cannot always be controlled except through using "substance".

Do you sometimes need "substance" to help you get through the day?

When did that start?
How often in the last 2 months?
When do you have your first "substance" of the day?
Do you miss it if you can't get "substance"?

What happens if you don't get "substance"?

Coding rules

SUBJECTIVE NEED FOR "SUBSTANCE"

1 = On at least some days feels an uncontrollable craving for "substance" that intrudes into thoughts or other activities, unless satisfied.
2 = Nearly every day feels an uncontrollable craving for "substance" that is intrusive into nearly every activity, unless satisfied.

Codes

60
USING "SUBSTANCE" TO IMPROVE MOOD
The subject described using "substance" in an attempt to
relieve dysphoria, anxiety, or irritability, or to induce an
increased feeling of well-being.

Do you sometimes use "substance" to cheer yourself
up when you feel low?

Or to make yourself feel less anxious?
When did that start?
How often does that happen?
Is that usually why you use "substance"?

SAMPLE INTERVIEW SECTION

OVERCONSUMPTION
Consumption of more "substance" than intended on a particular occasion. If regular overconsumption is present, consider carefully whether the subject's behavior also conforms to the definition of a Narrowed "Substance" Use Repertoire.

Do you sometimes use more "substance" than you mean to?

How often has that happened in the last 3 months? When did that start?

SAMPLE INTERVIEW SECTION

YAPA (GSMD) 2.0.0

Definitions and questions

UNCONTROLLABLE "SUBSTANCE" USE

Episodes in which, whatever his/her original intentions, the subject keeps on using "substance" until unable to use "substance" any more, either because of the unavailability of further "substance" or because of physical incapability (e.g. severe nausea).

If you once start using "substance", do you ever find that you just can't stop until all the "substance" is gone?

Or until you physically can't take any more (e.g. because of unconsciousness, vomiting, "sore lungs", etc.)?

Do you ever use "substance" just because it's there

How often does that happen?

When did that start?

Coding rules

UNCONTROLLABLE SUBSTANCE USE

0 = Never unable to resist using "substance" until no further "substance" available or unable to use "substance" any more.

2 = Sometimes

3 = Usually (> 50% of the time) unable to stop until no further "substance" available or unable to use "substance" any more.

SAMPLE INTERVIEW SECTION
NARROWED "SUBSTANCE" USE REPERTOIRE

The subject tends to use "substance" in the same way in any situation, even when a particular pattern may be inappropriate. For instance using "substance" heavily when on a first date, or using "substance" as much whether alone or in company. Subject is unable to have a repertoire of substance using behaviors; patterns of heavy use are no longer differentiated by environment.

Do you "get high (drunk) (use substance)" in inappropriate circumstances?

Like where?
Do have different patterns of using "substance" in different situations?

Do you vary how you use "substances" depending on the situation?
When did that start to happen?
Like when you go on a date, as compared with when you are with your friends?
None.

SAMPLE INTERVIEW SECTION

Definitions and questions

DISINHIBITED AGGRESSION

After using “substance” the subject has been verbally or physically aggressive in a way that is not characteristic of his/her behavior when not intoxicated.

Have you gotten into any arguments when you were “high (drunk)”?
When you’ve used a lot of “substance” do you get bad-tempered or angry?

More than usual?
How often in last 3 months?
When did that start?
Have you gotten into any physical fights when you were “high (drunk)” in the last 3 months?
How often?
When did that start?

Coding rules

DISINHIBITED AGGRESSION
0 = Not unusually aggressive when under the influence of “substance”
1 = Has been unusually mild-aggressive when under the influence of “substance” during last 3 months.
2 = Has been unusually physically aggressive when under the influence of “substance” during last 3 months.

**DESCRIPTION**

**Definition:** Mood lability due to cannabis use within past the 3 months.

**Informant:** Child report is default. Use parent report if: a) child report is missing, b) child denies presence of a possible problem, but parent reports it.

**Note:** JCANMAL19 is part of diagnostic criteria for cannabis abuse.

MOOD LABILITY
Unstable mood swings, often from excessive joviality to maudlin misery or anxiety. Mood lability should only be coded here if it is sufficiently pronounced as to lead to effects that seem inappropriate to the situation (such as copious, apparently unprovoked, weeping in a bar), or appear to have interfered with the normal course of conversation or activities.

Did your mood change at all when you were high?

How did you feel?
What was it like?
Was your mood very up and down?
What about in the last 3 months?
When did that start?

YAPA (G3MS) 2.0.0

## SAMPLE INTERVIEW SECTION

### PHYSICAL PROBLEMS

Include any physical problems that either stem directly from intoxication (such as those resulting from injuries from an accident while intoxicated), or that a physician has told the subject are related to "substance" use.

**MAKE WRITTEN NOTE OF NATURE OF PHYSICAL PROBLEMS.**

**Have you had any other physical problems on account of "substance" in the last 3 months?**

**When did that start?**

**Did anyone tell you that using "substance" was responsible?**

**Were you hospitalized because of it?**

**Did you carry on using "substance" anyway?**

Definitions and questions

BLACKOUTS
Episodes of amnesia lasting at least 1 hour that occur in relation to bouts of heavy “substance” use.

Have there been any times when you couldn’t remember what had happened when you were using “substance”?

Tell me about it?
When did that start?
Has it happened in the last 3 months?
How often?
How long was the period that you couldn’t remember?
